Selected configuration

BL1P4H

Height: 1060 mm
Seat height: 790 mm
Width: 480 mm
Length: 510 mm
Colour of the seat: Olive RAL 6013
Colour of the base: Olive semi-matte RAL 6013

Sustainability

- Elements that do not need our standards are processed into re-granulate and reused for the production of polypropylene seats.
- Upholstered Baltic Soft Duo and Classic chairs are made using seats created during the change of granulate colours in the injection moulding machine.
- Basic, Remix and Classic versions are made without upholstery staples. Fewer elements mean it is easier to reassemble and recycle the chair.
- The cushion in Baltic Remix and Classic is fixed mechanically, with no need to glue it. As the foam is not glued, it is easy to separate it from the polypropylene inlay. That simplifies the recycling process.
- Sustainable production – we are not indifferent to the environmental impact of our furniture, therefore we provide the essential information on the life cycle of our products through the Environmental Product Declarations (EPD).

Guarantee

.mdd products - 5 years.
Electrical components - 2 years.

Assembly manuals

Pre-assembled product. Product does not require assembly.
